

AKASH RAMESH

PLATFORM ENGINEER

Email: hello@akashramesh.in LinkedIn: [akashramesh1999](https://www.linkedin.com/in/akashramesh1999) Website: akashramesh.in

SUMMARY

Platform Engineer with 6+ years of experience building cloud-native backend systems using Java, Node.js, and AWS. Developed AI-assisted database automation with Amazon Bedrock, event-driven services processing over 50K messages per day, and microservices handling 10M+ API requests per month. Experienced in distributed systems, Kubernetes, database optimization, and CI/CD.

WORK EXPERIENCE

Platform Engineer

ADP India Pvt. Ltd.

Feb 2022 - Present

Chennai, India

- Built a Webex-based platform for database operations that validated JIRA approvals, verified user access, executed stored procedures, and supported transactional rollback using Amazon Bedrock and AWS services.
- Developed Amazon Bedrock agents for stored procedure validation, manifest generation, approval checks, access control, prompt injection detection, and user assistance.
- Integrated Amazon SQS for asynchronous processing, enabling the platform to process more than 50K messages per day while reducing work performed during API requests.
- Built a WebSocket-based CloudWatch log viewer using React Window and Amazon S3 to stream and archive execution logs.
- Automated internal workflows with Node.js scripts, reducing manual effort across operational tasks.
- Deployed and maintained containerized services on Kubernetes.

Junior Software Engineer

Cognizant

Jul 2020 - Feb 2022

Chennai, India

- Built Spring Boot and Node.js microservices serving more than 10M API requests per month.
- Developed React interfaces and integrated them with Java-based REST APIs.
- Optimized REST APIs, reducing response times by 20%.
- Wrote Jest and JUnit tests for frontend and backend services.
- Integrated builds and deployments into CI/CD pipelines, reducing reported bugs by 50%.

EDUCATION

B Tech (Computer Science and Engineering)

SRM Institute of Science and Technology, Chennai, India

Jun 2016 - May 2020

GPA: 8.36 - First Class with Distinction

AISSCE - DAV Boys Senior Secondary School, Gopalapuram

Apr 2015 - May 2016

Group: Science with Computer Science

SKILLS

- **Programming:** JavaScript, TypeScript, Java, Python
- **Backend:** Node.js, Express.js, Spring Boot, Spring Batch, Django
- **Frontend:** React.js, Redux, React Native, Expo
- **Databases:** MySQL, PostgreSQL, MongoDB, Redis, SQLite
- **Cloud:** AWS, Amazon Bedrock, SQS, Lambda, EC2, RDS
- **Infrastructure:** Docker, Kubernetes, Git, Jenkins
- **Tools:** Grafana, Datadog, Splunk, Redash

PERSONAL PROJECTS

Aham - Private Offline Journaling App

- Built a cross-platform journaling application for Android, iOS, and Web from a single React Native and Expo codebase.
- Implemented offline-first local storage with SQLite, eliminating the need for user accounts or cloud synchronization.
- Designed a responsive interface with rich-text editing and adaptive light and dark themes.
- Deployed the application to the web and distributed Android builds as standalone APKs.
- Hosted at aham.akashramesh.in.

Pixel Pursuit - Blogging Platform

- Built a full-stack blogging platform using React, TypeScript, Spring Boot, and MongoDB.
- Implemented rich-text editing, image uploads, tagging, JWT authentication, and OAuth2 login.
- Added server-side caching and asynchronous processing to reduce repeated database work.
- Hosted at blog.akashramesh.in.

CERTIFICATIONS

AWS Certified Cloud Practitioner

Credential ID: VWWP99BLGB4Q1R55
